**PLEASE READ THESE INSTRUCTION CAREFULLY BEFORE STARTING ASSEMBLY**

So your relationship is strong. But is it flat-pack furniture strong? Unless you're an aerospace engineer, assembling furniture can be slightly stressful. We recommend meditating quietly, pouring yourself a herbal tea (or slightly less herbal wine) and tackling things one step at a time. If you feel a passive aggressive remark coming on, try a compliment instead. E.g. "You're so good looking".

This 8-Step assembly should take around 35 minutes with an Allen Key-or 20 minutes with an electric drill. Godspeed.
